1 This can be quicker than working online and is ideal if you need access to VISTA where internet access cannot be guaranteed. This version is supplied with its own self-contained software and is available either 'standalone', for installing in individual PCs or Laptops; or 'network' for installing on servers, ideal if you want access for a whole office or department.
2 Updated at least weekly & needing no additional software as access is via your web browser, e.g. MS Internet Explorer. Other browsers may not be compatible.
